

SAFETY DATA SHEET

Date: 12 June 2009

Version: 1

Page 1 of 6

1. Identification of the substance/mixture and company/undertaking

Product name	Clinell Detergent Wipes
Use	Cleaning Wipes
Supplier	GAMA Healthcare Ltd. Customer Services 39 Hampstead House 176 Finchley Road London NW3 6BT UK
Contact number	Telephone +44(0) 845 2011 644
E-mail contact	info@gamahealthcare.com

2. Hazards identification

Classification	Not classified for supply.
Health hazards	None identified for this product.
Environmental hazards	None identified for this product.
Fire and explosion hazards	The product is water-based, and no fire or explosion hazards are expected.

3. Composition/information on ingredients

Declarable components	Conc (%)	EC No.	CAS No.	Classification
Propane-1,2-diol	1 to 5	200-338-0	57-55-6	Not classified

Other components

Water	>75
Other additives	Each <1

4. First-aid measures

Skin contact	For industrial use of the liquid, remove contaminated clothing and wash affected area with soap and water. If irritation occurs, seek medical attention. Launder contaminated clothing before re-use.
Eye contact	For industrial use of the liquid, in case of contact with eyes, irrigate with water for 15 minutes, occasionally lifting eyelids. Seek medical attention if irritation occurs.
Ingestion	For industrial use of the liquid, if swallowed, wash out mouth thoroughly and give water to drink. Seek medical attention if significant amounts (eg more than a teaspoonful) are ingested, or for any symptoms occurring after ingestion. Do not induce vomiting, unless instructed by medical personnel.

SAFETY DATA SHEET

Date: 12 June 2009

Version: 1

Page 2 of 6

Inhalation For industrial use of the liquid, if adverse effects (eg irritation of the airways) occur, remove patient from exposure and give fresh air and rest. If the patient continues to feel unwell, obtain medical attention.

Medical treatment Show this safety data sheet to medical personnel. Give symptomatic treatment and supportive therapy.

5. Fire-fighting measures

Fire and explosive properties

The product is water based, and therefore not flammable or explosive.

Extinguishing media Water spray, carbon dioxide, dry chemical and foam are compatible with the product. Remove containers from fire or cool them with water.

Specific hazards When heated sufficiently, product may decompose to form smoke and toxic fumes, gases or vapours.

Protective equipment for fire fighters

Fire fighters should wear an approved self-contained breathing apparatus and full protective clothing.

6. Accidental release measures

Personal precautions For industrial spills of the liquid, ensure full personal protection is worn (see Section 8). Keep unauthorised personnel from the spillage area.

Environmental precautions Prevent leakage of product into water-courses or drainage system by diking with sand or other absorbent material. Contact authorities, water company, and waste-water treatment plant as appropriate if significant contamination occurs.

Method for cleaning up Stop the source of leak or release. Clean up spill as soon as possible. Small spills can be mopped up with dry cloth. Collect larger spill using techniques such as sorbent materials or pumping. Place material in suitable container for disposal in accordance with local and national regulations. Wash contaminated surfaces with water, and collect washings for safe disposal. Follow prescribed procedures for responding to large spills and reporting to appropriate authorities.

7. Handling and storage

Information for safe handling

For industrial use of the liquid, avoid contact with skin and eyes. Wear protective clothing as in Section 8. Good general ventilation is recommended.

SAFETY DATA SHEET

Date: 12 June 2009

Version: 1

Page 3 of 6

Storage Store in a cool, dry, well-ventilated place, away from direct sunlight. Do not allow to freeze. Keep container closed when not in use.

8. Exposure controls/personal protection

Occupational exposure limits

EU: None.

UK: Propane-1,2-diol: long-term exposure limit (8 h), 474 mg/m³ (150 ppm) (total vapour and particulates); 10 mg/m³ (particulates).

Engineering measures For industrial use of the liquid, good general ventilation is recommended.

Personal protective equipment

For professional use of the liquid, the need for personal protective equipment should be based on a workplace risk assessment for the particular use. Prevent skin and eye contact by wearing chemical resistant gloves (eg rubber, neoprene, PVC) and safety goggles. Where more extensive contact may occur, wear suitable protective clothing (eg apron, sleeves, boots).

PPE should be to European (EN) standards. Consult manufacturers concerning breakthrough times.

9. Physical and chemical properties

Appearance	Moist non-woven wipe
Odour	Slight, rose-perfume
Melting point	Ca. 0 °C
Boiling point	Ca. 100 °C
Flash point (typical)	Not expected for water-based product
Explosive properties	Not expected for water-based product
Autoignition temperature	No data available
Vapour pressure	24 mmHg (25 °C) (water)
Specific gravity	No data available
Solubility: in water	Liquid is water soluble
 in solvents	No data available
pH	No data available
Partition coefficient	No data available

10. Stability and reactivity

Stable under recommended storage and handling conditions. No hazardous polymerization.

Conditions to avoid None.

Materials to avoid Oxidising agents. Contact with anionic substance will reduce effectiveness of the product.

SAFETY DATA SHEET

Date: 12 June 2009

Version: 1

Page 4 of 6

Hazardous decomposition products

None known.

11. Toxicological information

The preparation has not been tested for toxicological effects. Based on the known effects of the ingredients, the product is classified for human health effects as indicated below.

Acute toxicity Not classified as harmful by ingestion, skin contact, or inhalation.

Corrosivity/irritation Prolonged or repeated skin contact may cause irritation. Mild irritant to eyes.

Sensitisation No ingredient has been identified as having sensitising properties.

Repeated-dose toxicity No information available.

Carcinogenicity/Mutagenicity/Reproductive toxicity

No information available.

12. Ecological information

Ecotoxicological data have not been determined specifically for this product, but it is not classified as harmful on the basis of the known hazards of the components.

Mobility No information available.

Persistence/degradability No information available.

Bioaccumulation No information available.

Toxicity No information available.

13. Disposal considerations

This product may be disposed of via the drains, by landfill, or by incineration. Disposal must be in accordance with current national and local regulations.

In industry, chemical residues generally count as special waste, and their disposal may be regulated in the EC member countries through corresponding laws and regulations. We recommend that you contact either the authorities or approved waste disposal companies who will advise you on how to dispose of special waste.

14. Transport information

Not classified for transport.

15. Regulatory information**Classification and labelling according to EC Directives**

Classification Not classified

Symbols and indications of danger

None

SAFETY DATA SHEET

Dangerous Preparations Directive (99/45/EC).

REACH Regulation (1907/2006).

Regulation (EC) No 1272/2008 on *Classification, Labelling and Packaging of Substances and Mixtures*.

Chemical Agents Directive (98/24/EC).

Personal Protective Equipment (EC Directive) Regulations SI 1992/3139.

Guidance

COSHH Essentials: Easy steps to chemical control.

Occupational Exposure Limits EH40.

16. Other information

Revisions: None

Risk phrase explanations: None

Explanatory note: This SDS refers mainly to the industrial use of the liquid. The product is supplied as packaged cleaning wipes, which are not expected to produce adverse health or environmental effects under normal conditions of use and disposal.

The classification of the liquid component has been assessed according to the calculation method given in 99/45/EC on the basis of available information for the ingredients from supplier safety data sheets.
