3M™ Tegaderm™ 1610 I.V.
Paediatric Transparent I.V. Dressing with Securing Tape

- Patient concordance: Cute teddy bears on the dressing increase patient acceptability
- Secure: Reinforced with soft cloth tape and includes pre-cut sterile tape strips for improved fixation and security
- Tegaderm film: Protects site from external contaminants and allows observation of insertion site
3M™ Tegaderm™ 1610 I.V.
Paediatric Transparent I.V. Dressing with Securing Tape

- Secures the device reliably
- Protects the skin integrity
- Specifically designed with children in mind
- Easy to apply
- Frame delivery system allows accurate positioning
- Prolonged dressing wear time
- Tegaderm 1610 I.V. dressing complies with the ICNA guidelines for I.V. dressings
