CONTOURA® 460, 480

Four-Section Electric Profiling Beds with Electric Tilt
The Contoura® 460 and Contoura® 480 electric profiling beds are highly versatile, general-purpose support surfaces. The fully electric operation of the beds allows effortless patient positioning, which greatly reduces moving and handling risks. The patented Pro-Contour™ profiling mechanism gives superior pressure, shear and friction reduction in comparison to conventional profiling beds. This enhances patient comfort and helps to reduce the risk of pressure ulcer development.

The beds have a flexible, modular design, allowing easy tailoring to suit specific needs, areas and budgets. The Contoura 460 and 480 beds have the same features except for the safe working load. Contoura 460 has a safe working load of 180kg (28 stone). Contoura 480 has a safe working load of 267kg (42 stone), to allow safe, effective management of heavier patients.

**EFFORTLESS ELECTRIC TILT**
Enhanced chair position at the touch of a button, for
- Reduced moving and handling risks
- Improved clinical outcomes
- Enhanced patient comfort and well-being
### Reduced Risk of Pressure Ulcers

The unique Pro-Contour profiling system consists of 5 simultaneous mattress platform movements. It mimics the way a person’s tissues stretch as they move from a supine to sitting position, and offers major benefits over conventional profiling beds:

- Enhanced pressure, shear and friction reduction
- Excellent postural support
- Reduced abdominal strain
- Improved comfort

### Improved Clinical Outcomes

Earlier upright positioning and mobilisation helps to reduce complications of immobility and actively benefits major body systems:

- Improved lung function
- Reduced risk of chest infection
- Reduced cardiac workload
- Improved cardiac output
- Improved urinary drainage
- Reduced risk of infection
- Improved gut motility
- Improved nutrient absorption
- Reduced muscle wastage
- Joint flexibility maintained
Standard Features

- Electrically operated backrest, knee-break, height and tilt adjustment
- Pro-Contour profiling
- Auto-Contour-one button upright positioning
- Battery back-up
- Nurse and patient handsets
- Handset lockout facility
- Dual-sided fast drop manual CPR levers
- Auto-CPR
- Gas spring assisted calf section adjustment
- Built-in bed extension with mattress retainer
- Pull-out bed stripper
- Removable head and foot ends
- Perforated dimple sheet mattress platform
- Moulded plastic base cover
- Linked braking/steering system
- 125mm single-wheel castors
- 150mm under bed clearance

Benefits

- Effortless patient positioning, reduced moving and handling risks
- Reduced risk of pressure ulcers, improved postural support
- Ease of use, increased patient independence, earlier upright positioning and mobilisation
- Ability to change patient’s position in absence of mains power
- Ease of use, tilt under nurse control only for enhanced patient safety
- Enhanced patient safety
- Rapid repositioning in emergency
- Effortless, rapid levelling of bed from any position
- Easy adjustment of heels raised or lowered for optimal clinical management
- Full use of calf section when bed is extended
- In-bed shelf for linen, reducing cross-infection risks
- Easy to clean, easy patient access
- Perforations aid with mattress ventilation, sheets removable in sections for easy cleaning
- Easy to clean
- Excellent manoeuvrability and steering, secure braking enhances patient safety
- Excellent manoeuvrability
- Full length hoist access

Optional Features

- X-ray translucent backrest and cassette carrier
- 150mm single - or twin-wheel castors
- No bed extension
- Integral ¾ length folding safety sides
- ABS plastic mattress platform
- Range of head and foot ends

Please refer to the Contoura® 460/480 options brochure for further details.

Accessories

A wide range of Accessories are available. Please contact Huntleigh Healthcare for details.

TECHNICAL DETAILS

| Overall length | 221cm (87") |
| Overall length (extended) | 239cm (94") |
| Overall width (with sides) | 103cm (40/1") |
| Height range | 40 – 80cm (15 1/2” – 31 1/2” |
| Tilt range |
| Head-down | 0 to 17” |
| Foot-down | 0 to 17” |
| Backrest angle (maximum) | 65º |
| Calf section elevation (maximum) | 37º |
| Safe working load |
| Contoura 460 | 180kg/396lbs |
| Contoura 480 | 267kg/587lbs |

ELECTRICAL DATA

| Power in | 1.5A max at 230V a.c. 50/60 Hz |
| Electrical shock protection | Class 1, Type B |
| Liquid ingress protection | IP54 |
| Batteries | 2 x 12V series connected, sealed, rechargeable, lead/acid gel 1.2 amp.hrs. |

Optional Features

- X-ray translucent backrest and cassette carrier
- 150mm single - or twin-wheel castors
- No bed extension
- Integral ¾ length folding safety sides
- ABS plastic mattress platform
- Range of head and foot ends
