C'mon baby do the maceration

Over 85% of UK hospitals are doing the maceration, using the Vernacare system which includes the new Vortex macerator and the complete range of single use medical pulp products. It couldn't be easier. Hospital evaluations show that doin' the maceration is more economical than using a washer disinfectant and reusable items and that's before any costs associated with hospital acquired infections.

The new Vortex macerator has pioneering design, the innovative hands free opening mechanism and unique twin bladed maceration process means Vortex is the preferred hospital human waste disposal unit.

New Antibacterial Deodoriser

Hands free opening preventing the risk of cross contamination in the sluice room, and reducing ward staff time.

Automatic anti-bacterial cleaning process The anti bacterial deodoriser works against bacteria in the hopper, while the light fragrance improves the maceration experience offering reassurance and piece of mind for the user.

Hygienic The lid seal has been proven to effectively contain aerosols, eliminating risk of micro-organisms being released into the air.

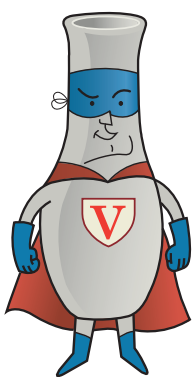

Durable The Vortex macerator is manufactured to ISO EN 9001:2000 standards and is tested to ensure compliance with CE and BS requirements.

New

New hands free opening

Macerates all Healthcare Heroes

Here's a new idea that really holds water (and soap)

Conventional plastic washbowls can harbour bacteria and fungi if they are not cleaned and dried effectively. If the same bowl is then used between patients this can lead to infections being passed from patient to patient.

Detergent Proof - the only disposable pulp bowl that can be used with soap and warm water.

Single use - a clean bowl every time.

Maceratable - saves nurse time and disposal costs.

Dispensing rack available.

Capacity: 4 litres.

Vernaclean bowl product code: 118AA050

Cleaner safer healthcare from Vernacare

Vernacare is one of the worlds leading infection prevention organisations, providing the Vernacare disposable system for human waste management to hospitals.

Vernacare medical pulp is the core product range within the system. The latest addition is the new Vernacare detergent proof washbowl which is patent protected and unique in offering a single use alternative to plastic washbowls.

The Vernacare system is used and trusted by 90% of UK hospitals and plays a key role in preventing cross-infection and has additional benefits in terms of protecting patient dignity; cutting nurse time and improving environmental performance.

Vernacare's Quality Assurance system complies with BS EN ISO 9001:2000 and BSI Kitemark PAS029. Stringent quality systems mean 100% maceration, and no leaks, so there is no need to use two or more products together.

01

Multi Cup

Strong, doesn't buckle during normal use and excellent pouring action

Independent tests show there is no misleading contamination from Vernacare pulp products

Perfect for taking urine, stool and sputum samples

Ideal for dispensing tablets and as a measuring scoop

Capacity: 300ml

NPC Code: FSX014

Also available: Multi Cup Cover 193ZS200 (FSX002)

Product code: 116AA200

02

Medium Bowl

Versatile, sturdy and light

Ideal for handling excessive vomit

Dispenser rack available – see Ancillary products

Capacity: 1.7 litres

NPC Code: FSL119

Also available: Medium Bowl Cover 195ZS100 (VMC024)

Product code: 111AA200

03

Large Bowl

Large general purpose bowl

Light to handle yet sturdy and strong

Capacity: 3 litres

NPC Code: FSL118

Product code: 112AA100

04

C.S. Reciever

'Flat Based' bowl ideal for collecting used medical items

The preferred instrument collection receptacle

Capacity: 900ml

NPC Code: FSL24

Macerator friendly

Single use – reducing the risk of cross infection

Stackable product – saves space and is easier to store

Packaging data: Carton dimensions available from our customer care department.

06

Female Urinal

A real alternative for women
 Unique design
 Quick and easy to use for patients and staff
 Convenient, dignified and comfortable for patients
 Reduces the infection risk associated with indwelling catheter use
 Encourages independent toileting
 No patient lifting required
 Maximum capacity: 800ml
 NPC Code: FWW028

Product code: 108AA070

07

Male Urine Bottle – 900ml

An additional 100mls of capacity
 No lifting required
 Quicker and easier than some other methods of toileting patients
 Convenient, dignified and comfortable for patients
 Stands upright, enabling ease of sluice room storage
 Dispensing rack available – 509ZS001
 Capacity: 900ml
 NPC Code: FSE034

Also available: Bottle holder – see Ancillary product no. 504ZS0

Product code: 103AA120

08

Male Urine Bottle – Traditional

Based on the traditional design
 No lifting required
 Quicker and easier than other methods of toileting
 Dispensing rack available – 508ZS001
 Capacity : 800ml
 NPC Code: FWW068

Also available: Bottle holder – see Ancillary product no. 504ZS001

Product code: 102AA100

09

Bedpan Liner

Intended for general toileting and practical patient care
 Dispenser rack available – see Ancillary products
 To be used with bedpan support
 Capacity: 2 litres
 NPC Code: FSE151

Also available: Bedpan Liner Cover 197ZS100 (VMC018)

Product code: 101AA100

10

Midi Slipper Pan

Dignified, hygienic and practical for toileting patients who can not be easily moved
 No lifting required – simply slips under the patient
 Dispenser rack available – see Ancillary products
 Capacity: 1.3 litres
 NPC Code: FSE014

Midi Slipper Pan Cover 196ZS100 (VMC007)

Product code: 109AA100

11

Maxi Slipper Pan

Dignified, hygienic and practical for toileting patients who are not easily moved
 No lifting required – simply slips under the patient
 Dispenser rack available – see Ancillary products
 Capacity: 2 litres
 NPC Code: FSE015

Maxi Slipper Pan Cover 194ZS100 (VMC022)

Product code: 114AA100

12

Kidney Dish

Prevents infection outbreaks associated with plastic trays

Easy to carry and dispose of when compared to plastic or stainless steel

Ideal for new and used dressings, wipes or surgical instruments

Capacity: 700ml

NPC Code: FTA108

Product code: 105AA300

13

Bedpan Support

Reusable support for the Bedpan Liner

Solid & easy to clean

Made for constant wear

Storage rack available – see Ancillary products

Capacity: 1 disposable pulp Bedpan Liner

NPC Code: FSE021

Product code: 301ZP001

14

Midi Slipper Pan Support

Reusable support for the Midi Slipper Pan

Provides strong and safe support during usage and transportation

Capacity: 1 disposable pulp Midi Slipper Pan Liner

NPC Code: FSE023

Also available: Slipper Pan Support Rack 518ZS001

Product code: 303ZP001

15

Maxi Slipper Pan Support

Reusable support for the Maxi Slipper Pan

Provides strong and safe support during usage and transportation

Capacity: 1 disposable pulp Maxi Slipper Pan Liner

NPC Code: FSE024

Also available: Slipper Pan Support Rack 518ZS001

Product code: 304ZP001

16

Small Bowl Support

Supports the Small Bowl when used as a child's potty

Reusable, solid and easy to clean

Made for constant wear

Capacity: 1 disposable pulp Small Bowl

NPC Code: FSE022

Product code: 302ZP001

17

Measuring Jug (1 litre)

Prevents infection outbreaks associated with plastic jugs

New integrated level indicator for easier measuring

Ergonomic handle for easy grip when handling and pouring

Dispenser rack available – see Ancillary

Capacity: 1.3 litres

NPC Code: FTL002

Product code: 110AA100

Join our customer advisory group

Do you want to help develop cutting edge new products? Do you want to network with your peers in a relaxed environment to examine best practise? Can you spare two days per year to join Vernacare's advisory group either in the North or South of England? If the answer is yes we are very interested in hearing from you. For further information about the event and reimbursement details contact our new Product Development Manager on 01204 555999 or email vcorders@vernagroup.com

Ancillary products

01
Bedpan Support Rack
Simple design, solid and easy to clean
Keeps the sluice room smart and organised
Simply screw it onto the wall
Capacity: 5 Bedpan Supports
NPC Code: FSE026
Product code: 501ZS001

02
Bedpan Support Holder-Flat Plate
Simply clips onto the end of the bed frame for immediate access
Ideal for individual patient support
Capacity: 1 Bedpan Support
Can also be used to hold 1 Midi or 1 Maxi Slipper Pan Support
NPC Code: FSE028
Product code: 503ZS001

03
Female Urinal Carton Holder
Maintains a good supply of the product for the ward
Capacity: 1 carton of pulp disposable Female Urinal Bottles
Positioned off the floor and therefore away from risk of possible infection.
Screws onto the sluiceroom wall to hold 1 box of 100 Female Urinals (108AA070)
NPC Code: FSE032
Product code: 507ZS001

04
Male Urinal Bottle Holder
Simply clips onto the end of the bed frame for immediate access
Capacity: 1 disposable pulp Male Urinal
Can be used to hold 1 Traditional or 1 900ml Bottle
NPC Code: FSE029
Also available: Small bowl cover
Product code: 504ZS001

05
Slipper Pan Support Rack
Simple Design, solid and easy to clean
Capacity: 5 Midi or 5 Maxi Slipper Pan Supports
Screw it to the sluiceroom wall
NPC code: FSE036
Product code: 518ZS001

06
Commode Attachment
Enables a disposable Bedpan to be used on a commode chair
The attachment is simply screwed to the chair in minutes
The Liner then just slips on using the guide rail. Simple!
Capacity: 1 Commode Pan liner
NPC Code: FSE031
Product code: 506ZS001

07
Male Urinal (102) Carton Holder
Maintains a good supply of the product for the ward
Capacity: 1 carton of pulp disposable Male Urinal Bottles
Positioned off the floor and therefore away from risk of possible infection.
Screws onto the sluiceroom wall to hold 1 box of 100 Male Urinals (102AA100)
