Full text of R-phrases is given in section 16.

3. HAZARDS IDENTIFICATION

Extremely flammable liquefied petroleum gas. CAUTION: Pressurised container. Protect from sunlight. Do not expose to temperatures exceeding 50°C. Do not pierce or burn even after use. Do not spray on a naked flame or any incandescent material. Keep out of reach of children.

This product contains a material with an OES/MEL published in HSE document EH40.

4. FIRST AID MEASURES

Eyes: Rinse immediately with copious amounts of water, holding the eyelids open and obtain immediate medical attention.

Inhalation: Remove from source of exposure. Seek medical advice if effects persist.

Skin: Not applicable.

Ingestion: Remove product from mouth, give the casualty a small quantity of water to drink and seek medical advice. Do not induce vomiting.

5. FIRE FIGHTING MEASURES

FLAMMABLE AEROSOL - In the event of a fire there is a severe risk of explosion and flash. Aerosols stored in quantities likely to present a hazard should be cooled with water or water spray if this can be done without risk to firefighting personnel. Unsuitable extinguishing media would be water with a full water jet. May evolve toxic fumes if involved in a fire. Firefighters should wear self contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

Wear suitable protective clothing including gloves and eye/face protection. Accidental release would not normally occur with aerosols, however if a can or cans were leaking then ensure good ventilation and that all sources of ignition are removed. Absorb liquid components with liquid-binding material.

7. HANDLING & STORAGE

Avoid contact with skin and eyes. Always ensure good ventilation when using this product. Do not spray near naked flames, incandescent surfaces or other sources of ignition. Protect against electrostatic charges. No smoking. Do not mix with any other chemicals other than as advised by your JohnsonDiversey representative. CAUTION: Pressurised container. Protect from sunlight. Do not expose to temperatures exceeding 50°C. Do not pierce or burn even after use. Do not spray on a naked flame or any incandescent material. Keep out of reach of children.

Store upright in original closed containers in a cool place, away from sources of heat or ignition. Keep away from sources of ignition - do not smoke.

8. EXPOSURE CONTROL / PERSONAL PROTECTION

Hand: Personal protection is not normally required unless a risk assessment indicates the need for it.

Eyes: Personal protection is not normally required unless a risk assessment indicates the need for it.

Skin: Personal protection is not normally required unless a risk assessment indicates the need for it.

Date: 11/09/2002  Revision Number: -  Page 1/5
Respiration: Personal protection is not normally required unless a risk assessment indicates the need for it. Do not inhale gases/ fumes/ aerosols. For low levels of exposure use mask suitable for aqueous mists. Use breathing protection in case of insufficient ventilation.

OES/MEL: Butane (as propellant)

| O.E.S. | 1810 mg/cu.m 15 min ref time |
| O.E.S. | 1450 mg/cu.m 8 hour TWA |

Propane liquified

OES Asphyxiant

9. PHYSICAL & CHEMICAL PROPERTIES

Appearance: Colourless aerosol

Odour: Characteristic

Solubility: Not miscible or difficult to mix with water.

Flammability: Extremely flammable

Flash Point: Not applicable as aerosol

Explosive properties: Product is not explosive. However, formation of explosive air/vapour mixtures is possible.

10. STABILITY & REACTIVITY

Provided the product is stored in accordance with the approved guidelines there are no known hazardous decomposition products.

11. TOXICOLOGICAL INFORMATION

Eyes: Irritant, in case of freeze burns; redness, pain and poor visability.

Skin: Irritant, in case of freeze burns; redness and pain.

Inhalation: Inhalation of extremely high concentrations of the vapour, for instance through deliberate inhalation, is dangerous and can cause unconsciousness and death.

Ingestion: Unlikely to be irritant in normal use.

12. ECOLOGICAL INFORMATION

Ingredients according to EC 89/542:

More than 30% : Aliphatic hydrocarbons.

13. DISPOSAL CONSIDERATIONS

Do not puncture or throw into a fire, even when empty. Place empty containers in a dustbin. For disposal of unused or part used containers, contact a licensed waste management company European waste catalogue 16 05 04 Gases in containers (including halons) containing dangerous substances.

14. TRANSPORT INFORMATION

EEC Regulation: F, FLAMMABLE GAS, Aerosols, UN1950, Class 2.1, Hazchem - None.

IMDG/UN: Aerosols, UN1950, Class 2, PG II.

RID/ADR: Class 2, Item 5°F.

ICAO/IATA: Passenger Aircraft: 203, Y203

Cargo Aircraft: 203.

15. REGULATORY INFORMATION

Hazard symbol: F, FLAMMABLE, Contains Butane & Propane.

Risk phrases: R12 Extremely flammable.

Safety phrases: CAUTION: Pressurised container. Protect from sunlight. Do not expose to temperatures exceeding 50°C. Do not pierce or burn even after use. Do not spray on a naked flame or any incandescent material. No smoking. Keep out of reach of children.

S9 Keep container in a well-ventilated place.

S23 Do not breathe spray.

S51 Use only in well-ventilated areas.

This product contains a material with an OES/MEL published in HSE document EH40.

16. OTHER INFORMATION

Handle and apply only as recommended, for full information see product information sheet.

Date: 11/09/2002  Revision Number: -

Text of risk phrases associated with ingredients listed in section 2.
R12     Extremely flammable.
R13     Extremely flammable liquid.

Change made to section 7, 9 and 13.
TASKI tapi-antigum
Chewing gum remover

Description
Aerosol freeze spray (CFC-free) for chewing gum removal

Key properties
• Freezes the chewing gum to be removed

Benefits
• Fast and easy removal of chewing gum residues

Use instructions
Dosage:
TASKI tapi-antigum is ready to use.

Application:
Insert the tube into the spray head valve. Spray directly onto the chewing gum and immediately scrape off; remove frozen pieces, e.g. with a vacuum cleaner. Repeat if necessary.

Important:
Test colour-fastness and material compatibility in an inconspicuous place before use. Contents under pressure. Do not puncture or incinerate container (even when empty). Do not spray toward open flame or glowing objects.

Technical data
• Appearance: colourless
• Relative density [20°C] 0.54

The above data is typical of normal production and should not be taken as a specification.

Safe handling and storage information
Safe handling:
Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet. Only for professional users / specialists.

Storage Information:
Store in original closed containers away from extremes of temperature.
