Safety Data Sheet (ISO form)

1. Product and Company Identification

Product Name	:Print Cartridge MP 6054 (Black toner)
General Use	:The Image Formation of Printing Machine or Copier
MSDS Number	:842000
Company Name	:Ricoh Company,Ltd.
Department	:Environment Safety Center, Corporate Environment Division
Address	:146-1 Nishisawada, Numazu-shi, Shizuoka-ken, 410-0007 Japan
Telephone Number	:055-920-1470, Japan
Telefax Number	:055-920-1479, Japan

3.Hazards Identification

The Most Important Hazards Adverse Human Health Effects There are no significant hazards expected with intended use. Environmental Effects There are no significant hazards expected with intended use. Physical and Chemical Hazards

There are no significant hazards expected with intended use.

Specific Hazards

Dust explosion (like most finely grained organic powders)

Main Symptoms

Acute Inhalation Toxicity

Exposure to excessive amount of dust may cause physical irritation to respiratory tract.

Acute Oral Toxicity

Low acute toxicity in animal experiment.

Acute Eye Irritation

May cause slight transient irritation.

Acute Skin Irritation

May be non-irritant.

Sensitization

From test no apparent significant hazards are expected . (Only few cases reported on incidental allergy-related conjunctivitis or dermatitis.)

Chronic Effect

Slight pulmonary fibrosis has been reported in rats upon chronic inhalation exposure to a toner at 4mg/m3 every day for 2 years. No pulmonary change was found at 1mg/m3. These findings show that exposure to excessive amounts of powder may cause damage to lungs. However, normal use and handling of this product as intended, does not result in inhalation of excessive amounts of powder.

Carcinogenicity

Carbon black and titanium dioxide contained in this product are classified to Group 2B of IARC as the result of inhalation test in use of rat.

But oral/skin test does not show carcinogenicity.

The toner containing carbon black did not show carcinogenicity in chronic inhalation exposure test in use of rat.

In the animal experiment with very high concentration of titanium dioxide (excessive burden of rat's lungs clearance mechanism (overload phenomenon)), the rat alone showed lung turner. Under a normal use practice, the concentration should be far lower than the above and

tumor. Under a normal use practice, the concentration should be far lower than the above; and it is assumed that there is no such use.

Also, relation between respiratory disease and work exposure of titanium dioxide is not observed with epidemiological survey.

The Classification of The Chemical Product

This preparation is not classified as dangerous according to Directive 1999/45/EC.

4.First-Aid Measures

Inhalation

Remove from exposure to fresh air and rinse mouth with water. Seek medical advice.

Skin Contact

Wash thoroughly with soapy water.

Eye Contact

Flush with a large amount of water until particle is removed. Seek medical advice.

Ingestion

Drink several glasses of water to dilute ingested toner. Seek medical advice.

Notes to a physician

Not applicable

5.Fire-Fighting Measures

Extinguishing Media CO2, dry chemicals, foam or water. Extinguishing Media to Avoid Not applicable Specific Hazards Can form explosive dust-air mixtures when finely dispersed in air. Specific Method No special fire protecting method is required. Sprinkling or fire extinguishers can be used. Protection of Fire-fighters

Wear gloves, glasses, a mask if necessary.

6.Accidental Release Measures

Personal Precautions

Do not breathe in dust.

Environment Precautions

Do not flush into sewers or watercourses.

Methods for Cleaning Up

Fine powder may form explosive dust-air mixture.Confirm there is no source of fire and if there is a source, remove it.Sweep up spilled powder slowly and clean reminder with wet cloth.If a vacuum cleaner is used, a dust explosion-proof type must be chosen.

7.Handling and Storage

Handling

Technical Measures/Precautions

Not applicable

Safe Handling Advice

Do not handle in areas where there is wind or draught, this may cause dust to get into eyes. Avoid breathing in dust.

Storage

Technical Measures

Not applicable

Storage Conditions

Keep out of reach of children.

Store in dry, well-ventilated area, to maintain quality the temperature should not exceed 35°C for a long time. Avoid direct sunlight.

Packaging Material

Not applicable

Specific Use(s)

Image formation in printing machines or copiers.

8. Exposure Controls/Personal Protection

Technical Measures

Use adequate ventilation. None required with intended use. **Control Parameters** USA OSHA PEL (TWA): 15mg/m3 (Total dust) 5.0mg/m3 (Respirable fraction) ACGIH TLV (TWA) : 10mg/m3 (Inhalable fraction) 3.0mg/m3 (Respirable fraction) DFG MAK : 4.0mg/m3 (Total dust) 1.5mg/m3 (Respirable fraction) Personal Protection **Respiratory Protections** None required in normal use. If the limit of exposure concentration is exceeded, use authorised respirator. Hand Protection Use vinyl or rubber gloves if necessary. Eye Protection Put on goggles if necessary. Skin and Body Protection Wear chemical-resistant apron or other impervious clothing if necessary. Hygiene Measures Wash hands after handling

13.Disposal Consideration

General information:

Dispose of waste and residues in accordance with local authority requirements

Disposal methods:

Disposal recommendations are based on material as supplied. Disposal must be in accordance with current applicable laws and regulations, and material characteristics at time of disposal. Confirm disposal procedures with local regulations.

Precautions:

Do not throw the toner cartridge or toner into an open flame. The hot toner may scatter and cause burns or other damage.
